MNK4707QH23S	Meritor Q Plus	16.5" x 7"	23,000 lb.	23K Standard
MNK4709E2H23S	Eaton ES II	16.5" x 7"	23,000 lb.	23K Standard

CHOOSING THE RIGHT BRAKE LINING

- "Better" quality lining for 20,000-lb. GAWR
- Delivers high level of durability and friction stability.
- Medium-friction asbestos-free brake lining, with glass and acrylic fiber base which performs on highway over moderate terrain.

- "Better" quality lining for 23,000-lb. GAWR
- Delivers durability, friction stability, and good resistance to fade.
- Medium-friction asbestos-free lining using a glass and polymer matrix base reinforced by a custom fibre blend.

- "Best" quality lining for 23,000-lb. GAWR
- Delivers premium grade friction, consistent performance at high temperatures, strong stopping power, and exceptional drum compatibility.
- Asbestos-free lining with a glass and aramid fiber base; high temp resins for stable friction levels, low swell and growth eliminates potential for wheel lock-up.
