Shop Supplies & Accessories
including
METAL WORK!TM

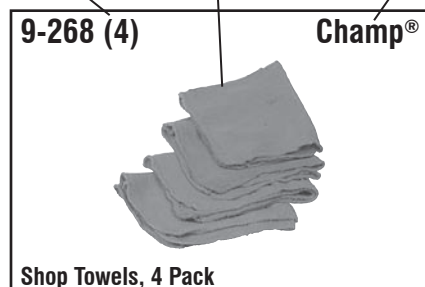

2 Two Sections...

Shop Supplies & Accessories	1-47
Assortments.....	48-64
Metal Work!	65-95

Product Listed in
alphabetical order within section.

HOW TO USE THIS CATALOG: Shop Equipment & Supplies

- High quality photographs for part identification
- Features number of parts in each package
- Indicates brand of retail packaging

Shop Towels, 4 Pack
Machine washable, red, hemmed towels.
Ideal for auto shops, home, office, etc.
Professional quality, absorbent and reusable.
Towel size is 13" x 15"
Champ 9-273 (12) 12 Pack
Champ 9-233 (25) 25 Pack
Champ 9-243 Display Box

- Features part numbers for alternate package quantities and secondary brands

Air Blowguns

- All blowguns are 1/4" NPT female threads
- Tool of a hundred uses
- Cleans away dirt, filings, great for shops and garages

9-912 (1)

Champ®

Air Chuck Blowgun

ARO design. Adjust from a wisp to a full-volume flow. Complete with a handy pocket clip. 150 psi maximum. Attach to 1/4" ARO air line coupler.

9-894 (1)

Champ®

Thumb Lever Rubber Tipped Blowgun

Thumb lever operation with rubber tip. Safety vents meet OSHA requirements. For carburetor work, cleaning air lines, etc. Built-in reducer limits nozzle pressure to 30 psi or less with inlet pressures up to 150 psi.

Air Chucks & Inflators

- Direct air line chucks have a built-in shut-off valve and, therefore, cannot be used on inflator gauges
- Use when air supply lines come directly from the compressor with no other valve in the line
- 1/4" female NPT threads

9-1742 (1)

Champ®

Air Compressor, 3-in-1

Air compressor/emergency light/pressure gauge. Plugs into 12V receptacle, delivers up to 200 psi. 12' power cord with lighter plug. 28" air hose has lock-on chuck that inflates tires, balls and rafts & pressurizes RV water systems. Operates spray guns and foggers. Adapter nozzles included.

9-890 (1)

Champ®

Chuck, Dual Foot

Simplifies filling dual truck tires.

9-889 (1)

Champ®

Chuck, Single Ball Foot

9-882 (1)

Champ®

Chuck, Snap-on Single Ball Foot with Clip

9-3262 (1)

Champ®

Chuck, Straight-On Dual Foot

Easy inflation, extended for hard-reach valves.

9-908 (1)

Champ®

Inflator Gauge with Dual Foot Chuck

12" hose. Calibrated 10-120 lbs.

Sales Tip

Valve stem caps help keep dirt and moisture out of tire valves. Valve extensions make tire valves easier to reach. See page 44

Air Regulator

A

9-882 (1)

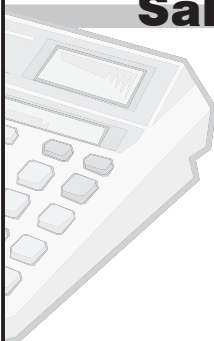

Champ®

Regulator - Air Line Pressure

For primary & secondary pressures up to 160 psi. Gauge is calibrated in psi & kg/cm². 1/4" female NPT inlet/outlet.

Sales Tip

Valve stem caps help keep dirt and moisture out of tire valves. Valve extensions make tire valves easier to reach. See page 44

Air Hose - Nylon

- Self-retracting abrasion-resistant nylon lines recoil to 1/25 of extended length
- Rated for working pressure of up to 200 psi., resists oils and solvents.
- All lines have 1/4" NPT male full swivel fittings at both ends.
- Eliminates twisting and provides free tool action. Coil guards to prevent crimping.

I.D.	Length	Champ Part # (Qty.)
1/4"	17'	9-955 (1)
1/4"	25'	9-956 (1)
3/8"	25'	9-1802 (1)

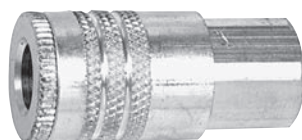

Air Hose Couplers & Nipples

- Heavy-duty brass and tubular valve construction for long life and greater air flow
- "Push to connect" style for quick and easy coupling
- Body styles are all unique and are not interchangeable with other designs
- To match the coupler with the nipple, the body size must be the same

9-865 (1)

Champ®

ARO Coupler - Female

1/4" Body 1/4" NPT

9-850 (1)

Champ®

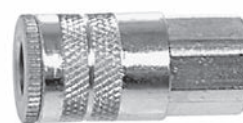

ARO Nipple - Male

1/4" Body 1/4" NPT

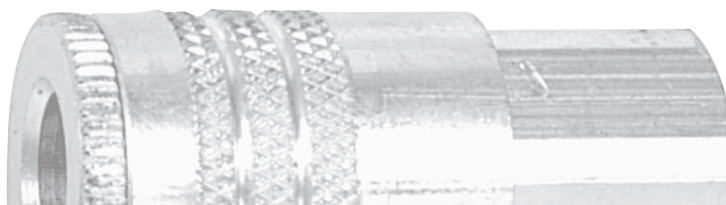

9-870 (1)

Champ®

Lincoln Coupler - Female

1/4" Body 1/4" NPT

9-859 (1)

Champ®

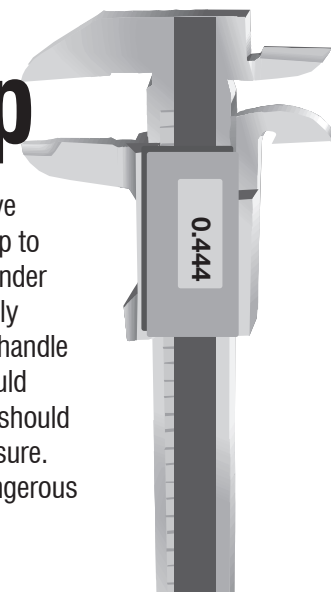

Tru-Flate Nipple - Male

1/4" Body 1/4" NPT

Tech Tip

Body size defines the air handling capacity of the coupler. The most popular for automotive shop use is 1/4" which handles air volumes up to 35 SCFM (Standard Cubic Feet per Minute). Under normal air line pressure, this coupler will readily connect and disconnect. 3/8" Body Couplers handle up to 60 SCFM while volumes above that should use 1/2". Note that 3/8" & 1/2" size couplers should not be connected or disconnected under pressure. Doing so, forces the coupling apart with a dangerous amount of force.

Antenna Assemblies

9-456 (1)

Champ®

Ball Base - 360° Antenna

Fully adjustable ball base. Permits top, side or angle mounting. Three-section telescoping mast extends to 50". Closes to 20-1/4". Includes 48" cable with standard size plug.

9-1518 (1)

Champ®

Ball Base - Key Lock Antenna

In-fender mounted 5-section antenna extends to 39". Retracts to base, requires a special key to extend. Includes 48" cable with standard size plug. Also included: 2 keys, soft tip & hardware. Requires 9-1/2" space under fender.

Antenna Assemblies (continued)

A

9-463 (1)

Champ®

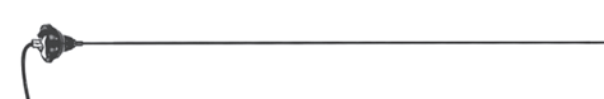

Ford Type One-Piece Antenna

29-3/4" stainless steel mast, overall 31". Includes 72" cable with standard size plug. OE style for Chevrolet, Ford, Mercury, Pontiac. Also fits: Lincoln & Nissan/Datsun models.

9-451 (1)

Champ®

GM Black Finish Style Antenna

Tough, mar-resistant, resin-based polyester finish. 31-1/2" long overall with one-piece mast. Includes 65" cable with standard size plug. Includes optional mounting base. OE style for Chrysler, Dodge, Hyundai, Mazda, Mitsubishi. Also fits: Alfa Romeo, AMC, Audi, BMW, Buick, Cadillac, Chevrolet, Fiat, GMC Truck, Honda, Isuzu, Peugeot, Toyota & Triumph.

9-465 (1)

Champ®

One section 30-1/2" long mast. Threads onto original base with adapter studs (included).

Antennas - CB

- Champ's Citizen's Band mobile antennas are center loaded with stainless steel masts and heavy-duty spring
- Stainless steel tuning tips are adjustable for best SWR (standing wave ratio)
- Coaxial cables are fully-assembled with standard type connector

95-1080 (1)

Champ®

Mirror Mount CB Antenna

Steel bracket clamps onto bracket of mirror. Use on right/left side of West Coast style mirror. Mast is removable for security. 49" long overall. Includes 16' coaxial cable.

95-1076 (1)

Champ®

Magnet Mount CB Antenna

Powerful ceramic magnet in base holds antenna. Plastic base liner helps prevent marring finish. Center-loaded mast has impact-absorbing base, 25" long overall. Not recommended for vinyl tops. Fully assembled with 15-1/2' coaxial cable.

Antennas - Power

- Each requires 11-1/2" deep x 3" long x 2" wide space under mounting surface for installation
- Four-section chrome plated stainless steel telescoping masts that extend to 31"
- Retract flush into fender mount
- 12-volt DC power, positive or negative ground
- Also included is 55" cable with standard size plug, hardware and instructions

9-445 (1)

Champ®

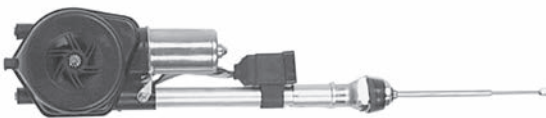

Semi-Automatic Power Antenna

Use switch to raise and lower antenna mast. Universal type base permits mounting options. Mount on front or rear fender. Color-coded wiring kit with control switch & brace.

9-425 (1)

Champ®

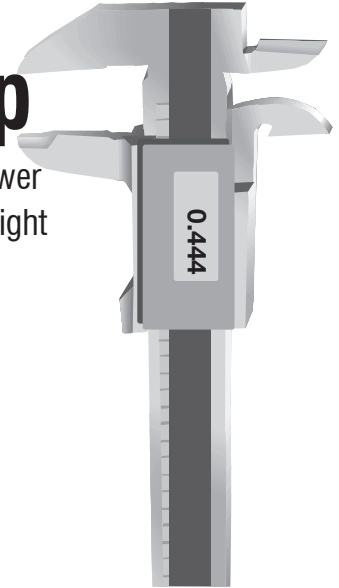

Fully Automatic Power Antenna - Chrome

Raises when radio is on, lowers flush when off. Kit includes 5 mounting heads. Mounting heads: 3, 8, 15, 23 & 30°.

Tech Tip

Clean & lubricate power antenna masts with light oil to prolong life.

Battery Hardware & Tools

- Hard-to-find parts to service batteries
- Excellent stocking item for specialty and general repair dealers

9-1766 (1)

Champ®

Battery Boxes, Large

16-5/8" x 9" x 10". Holds batteries up to 13-3/4"L x 7-1/8"W x 7-1/2"H. Polyethylene box keeps battery dry, protects from water/corrosives damage and helps prevent short circuits. Includes polyethylene tie-down strap and nylon buckle.

9-1765 (1)

Champ®

Battery Boxes, Small

13" x 9" x 10". Holds batteries up to 10-1/2"L x 7-1/8"W x 7-1/2"H. Polyethylene box keeps battery dry, protects from water/corrosives damage and helps prevent short circuits. Includes polyethylene tie-down strap and nylon buckle.

9-1731 (1)

Champ®

Battery Carrier Strap

For top terminal batteries. Acid resistant plastic strap. Double-grip jaws and safety catch.

9-786 (1)

Champ®

Battery Filler, Automatic

2 quart polyethylene to be used with acid or water. Automatic pouring action — flow stops when battery is full.

9-1301 (1)

Champ®

Battery Filler, Bulb Type

6 oz. capacity. Soft vinyl squeeze bulb with 6" long spout w/flex. Acid resistant.

9-431 (1)

Champ®

Battery Terminal Cleaner

Corrosion-resistant steel wire brushes. Inner bristles clean posts. Outer bristles clean cable terminals.

Battery Hardware & Tools (continued)

B

9-1473 (2)

Champ®

Battery Terminal Protectors - Side

Felt rings coated with corrosive preventive. Eliminates acid fumes from escaping at the seal. For side post batteries. One pair.

9-1471 (2)

Champ®

Battery Terminal Protectors - Top

Felt rings coated with corrosive preventive. Eliminates acid fumes from escaping at the seal. For top post batteries. One pair.
Champ 9-1465 (50)

9-1302 (1)

Champ®

Battery Tester - Hydrometer

13-1/2" long overall. Hydrometer float has large, easy to read markings. Checks battery condition by measuring specific gravity of battery acid.

9-1299 (1)

Champ®

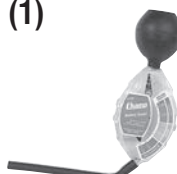

Battery Tester - Mini

Quick, easy way to check battery charge. Number of floating balls indicates cell condition.

9-1831 (1)

Champ®

Battery Tester - Professional

Shows state of battery charge instantly. Dial indicates gravity of electrolyte: hot or cold. Tests all 6, 12 & 24 volt wet cell storage batteries.

9-1779 (1)

Champ®

Battery Tools - Charger

1 amp trickle charger. Input 110/120 VAC, 50/60 Hz; Output 12VDC, 1 amp maximum. Includes color coded hookup wires with spring clips & instructions.

9-2545 (1)

Champ®

Battery Tools - Portable Tester

Use on 6 & 12 volt batteries. Up to 1,000 CA. Results in 30 seconds. Shock resistant movement with color coded clamps. Full 100 amp loaded capacity. Tests: Battery state-of-charge, battery cranking ability, charging system output and starter set.

111750 (1)

Champ®

Battery Tray - Large

13-3/4" x 7-1/2". Bolt-on replacement tray match mounting holes or brackets of most vehicles. One-piece, plastic coated steel with vented pocket to prevent accumulation of battery fluids. Holds group 4, 27, 29, 31, 53, 60 & 77 batteries.

111751 (1)

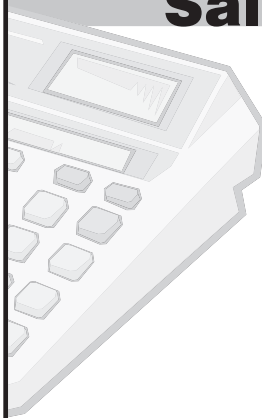

Champ®

Battery Tray - Small

11-3/8" x 7-1/2". Bolt-on replacement tray match mounting holes or brackets of most vehicles. One-piece, plastic coated steel with vented pocket to prevent accumulation of battery fluids. Holds group 1, 2, 17, 22, 23, 24, 42, 54, 55, 56, 72 & 74 batteries.

Sales Tip

For battery hold-downs and terminal bolts, refer to pages 8 and 9 of the 2009 Dorman HELP! Buyer's Guide. (HELP 0309)

Brooms, Brushes, Mops & Squeegees

95-1202 (1)

Champ®

Broom - Corn Fiber

Wire bound with four rows of heavy cord stitching. Smooth-sanded hardwood handle.

9-304 (1)

Champ®

Floor Brush - 3" Black Tampico Bristle

24" wide brush with dense bristles for general use. Use with Champ hardwood broom handles: **95-1205, 95-1207** or **95-1216**

50 watt. Vibration resistant, long life bulbs with extra-strong filaments and corrosion resistant brass bases are made for use in drop lights.

Champ 9-357 (4) 75 watt
Champ 9-360 (4) 100 watt

9-1208 (1)

Champ®

Drop Light - Fluorescent

Tough, lightweight material housing protects bulb. Insulated 25 ft. cord has plug-in ballast. Uses standard 15 watt fluorescent tube (9-361). 115-volt, AC only. UL listed. Not for explosive atmospheres. Bulb will not get "hot" like incandescent bulb.

Drop Lights, Extension Cords & Accessories (continued)

9-1207 (1)

Champ®

Drop Light - Fluorescent Mini

13 watt bulb in 12-1/2" long lamp. 15 ft. SVT 18/2 cord, 3 conductor plug-in ballast. Built-in switch and shatter-resistant housing. Use Champ 9-365 replacement bulb. No more burns. UL listed. Not for explosive atmospheres. Bulb will not get "hot" like incandescent bulb.

9-1239 (1)

Champ®

Drop Light - Industrial Grade

Circuit breaker handle. 16/3 SJT gauge. Metal bulb cage. Cord length: 25 ft. grounded plug and side outlet with bulb switch in handle. 15 amps 125-volt.
Champ 9-1240 (1) 50 ft.

9-1231 (1)

Champ®

Drop Light Metal Bulb Cage

All metal with swing-open cage and integral hook. Clamps onto most drop light handles. For use with grounded units only.

9-1230 (1)

Champ®

Drop Light Plastic Bulb Cage

Heat- and break-resistant. Will not heat up like metal cage. Swing-open cage. Clamps onto most drop light handles. UL listed.

9-1229 (1)

Champ®

Drop Light Replacement Handle

Unbreakable plastic. Switch and outlet built-in. Use with 3 conductor cord. Accepts most plastic and metal bulb cages.

9-1294 (1)

Champ®

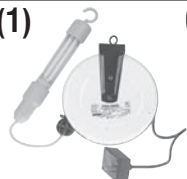

Drop Light w/Reel

18/3 SVT. 50 ft. cord with metal bulb cage. Built-in on/off switch and outlet in handle.

9-1221 (1)

Champ®

Drop Light w/Reel - Fluorescent

40 ft. cord (no switch in handle). 13 watt. Work light is activated by an automatic switching device on the reel.

9-1209 (1)

Champ®

Drop Light w/Reel - Metal

16/3 SJO, 30 ft. (neoprene) cord. Grounding plug, side outlet and switch. Rated at 7 amps, 125-volt. Meets requirements for grounding electrical equipment. UL listed. Work light is activated by an automatic switching device on the reel.

9-1212 (1)

Champ®

Reflector Light - Clamp On

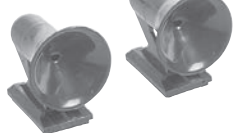

8-1/2" diameter aluminum reflector. Mounted with pivoting ball joint to spring clamp. 6 ft., 18/2 gauge SPT2 plastic cord. UL listed. Rated 10 amps 125-volt.

Exterior Accessories

9-2975 (2)

Champ®

Deer Whistles - Black

Ultrasonic warning device fits all vehicles. Easy to remove for cleaning. Warning whistle sound is airflow activated at 35 MPH.
Champ 9-2976 (2) Chrome

7-812 (2)

Champ®

Door Edge Guards - Black

Round, 33" in length. Protect door edges from chipping and scuffing. Flexible plastic edging conforms easily to door.

Champ 7-813 (2) Chrome, Round

Champ 7-815 (2) Chrome, Flat

7-274 (1)

Champ®

Hood Latch, Rubber w/Bracket

Universal latch - 4-7/8" long. Molded rubber holds doors and hoods tightly.

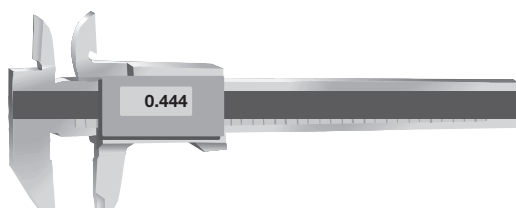

9-1709 (2)

Champ®

Spare Tire Cover - Black

Fits most 15" to 16" tires. Rugged fabric-backed vinyl with beaded seam. Industrial grade elastic makes for easy installation.

Tech Tip

To maintain effectiveness, clean out Deer Whistles every time you clean your car.

Fans

7-941 (1)

Champ®

12 Volt RV and Truck 2-Speed Fan

8-3/4" tall with 7-1/4" diameter guard. 6-1/4" metal blade is in chrome-plated wire guard. Chromed metal motor housing and base with built-in switch. 12-volt positive or negative ground.

7-942 (1)

Champ®

12 Volt RV and Truck Oscillating Fan

9-1/2" tall with 7" diameter guard, 6" plastic blade. Chrome-plated, steel bracket & wire blade guard. Installs on dash or side panel and is removable. Remote control push-pull switch with mount bracket. 12-volt positive or negative ground.

7-933 (1)

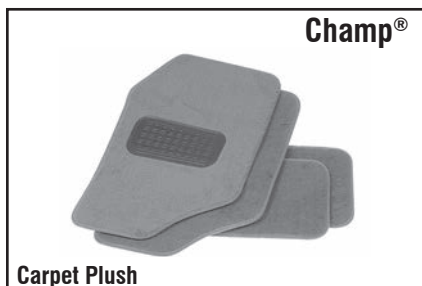

Champ®

24 Volt Heavy-Duty 2-Speed Fan

Chrome plated 8-3/4" x 7-1/4". For RVs, trucks, diesel equipment, aircraft, etc. Ideal for applications requiring 24 volts.

Floor Mats

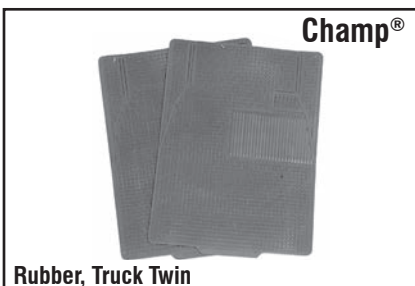

Carpet Plush

Complete four piece set. Front dimensions 26-7/8" x 17-1/4", rear dimensions 17" x 12".

Charcoal/Black

9-2684 (4)

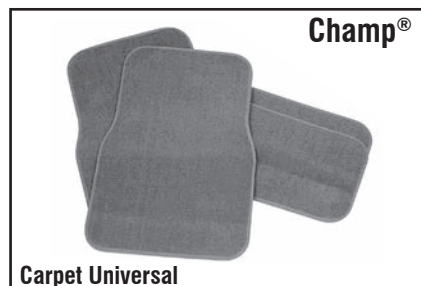

Rubber, Truck Twin

Two-piece, full size floor mats are made of heavy molded, natural rubber. Dimensions 27-1/2" x 20". Special waffle-grid design holds water, dirt and grime. Trim to fit.

Black

9-2669 (4)

Carpet Universal

Complete four piece front and rear set. Front dimensions 26" x 16-5/8", rear dimensions 16-5/8" x 11-1/4".

Beige/Tan

9-2734 (4)

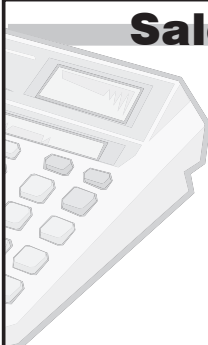

Black

9-2737 (4)

Gray

9-2735 (4)

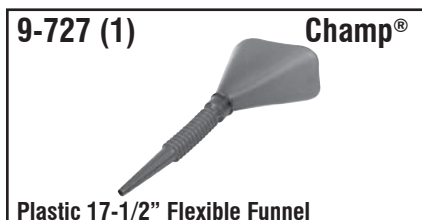

Sales Tip

Easy to Merchandise!
Each set comes with durable header for hanging.

F

Funnels

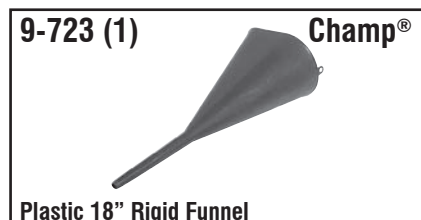

Plastic 17-1/2" Flexible Funnel

Equipped with safety screen. Unaffected by water, oil or grease.

Plastic 18" Flex & Fill Funnel

Bowl holds over 1 quart — or drop in quart can. Molded vent ribs support can and prevents vacuum lock. Polyethylene construction.

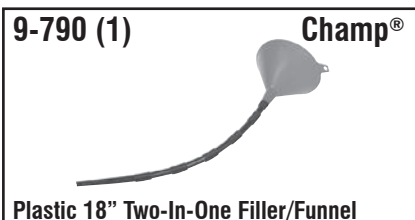

Plastic 18" Rigid Funnel

Polypropylene is unaffected by gasoline, oil, etc. Shape holds all rectangular bottles.

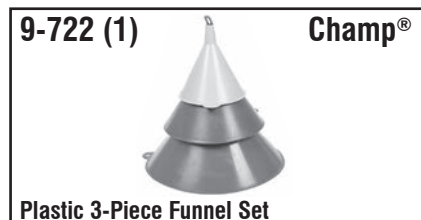

Plastic 18" Super Funnel

Funnel is 5" OD, tip tapers to 1/2" OD. Unaffected by water, oil or grease. Not recommended for solvents. Polyethylene construction.

Plastic 18" Two-In-One Filler/Funnel

Use with or without flexible tube. 5-3/4" diameter funnel top, 3/8" OD.

Plastic 3-Piece Funnel Set

Includes 4", 6" & 8" funnels. Capacities are 1/2 pint, 1 pint & 2 quart respectively.

Funnels (continued)

9-1335 (1)

Champ®

Plastic 4" Diameter Funnel

Capacity: 1/2 pint.

9-1336 (1)

Champ®

Plastic 6" Diameter Funnel

Capacity: 1 pint. Polyethylene construction.

9-811 (1)

Champ®

Plastic Fast Flow Funnel

7" diameter, oversized spout with filter screen.

9-784 (1)

Champ®

Steel 18" Transmission Funnel

Bevel top 5-1/2" funnel with # 80 mesh screen. Flexible steel hose with 3/8" ID tapered spout. Epoxy finish.

9-802 (1)

Champ®

Steel 6-1/4" Diameter Funnel

Capacity: 2 quart. Galvanized finish.

9-804 (1)

Champ®

Steel 8-1/2" Diameter Funnel

Capacity: 5 quart. Galvanized finish.

9-785 (1)

Champ®

Steel Flexible Neck 5-1/4" Diameter

Spout has 1/2" ID opening. # 80 mesh screen. Galvanized finish.

9-787 (1)

Champ®

Steel Tractor 10 Quart Funnel

Lock-on feature holds funnel in position. Removable brass screen. Galvanized finish.

Gas Cans

9-820 (1)

Champ®

Metal Safety Can - 3 Gallon

Heavy-duty all steel construction for safe indoor storage of all flammable liquids. Spring loaded, self-closing cap provides automatic pressure relief. Safety screen in spout provides fire baffle. Red enamel finish.

9-821 (1)

Champ®

Metal Safety Can - 5 Gallon

Heavy-duty all steel construction for safe indoor storage of all flammable liquids. Spring loaded, self-closing cap provides automatic pressure relief. Safety screen in spout provides fire baffle. Red enamel finish.

Sales Tip

Recommend your customers keep an empty gas can in their garage or vehicle for emergency situations.

Gasket Material

135143 (1)

Champ®

Gasket Material - Cork

Use for valve covers & oil pans. Accommodate compression and flexing of surfaces. Fuel and oil resistant - 1/16" x 12" x 36" in size. Ideal for lining tool drawers & tackle boxes.

135141 (1)

Champ®

Gasket Material - Fiber

1/32" thick. Impervious to fuels, lubricants & antifreeze. Use for engine timing covers, water pumps, thermostat housing & water outlets. 12" x 36" sheets ready to cut to fit for automotive, marine, small engine and compressor use.

Champ 135142 (1) - 1/16" thick

135144 (1)

Champ®

Gasket Material Asbestos-Free

Replaces compressed asbestos materials. For high pressure-temperature applications. Withstands temperature up to 350° F. Size: 1/32" x 12" x 18".

Gauge Kits

G

- Know the condition of your engine and electrical system with pre-assembled multi-gauge kits
- Full size 2-1/16" diameter gauges feature black faces with crisp white markings and red indicator
- Includes gauges, mounting panel with optional woodgrain insert, sending units, adapters and installation hardware

7-156 (1)

Champ®

Dual Gauge, Chrome - Mechanical

Oil Pressure/Water Temperature. Back lit. Panel size: 5-1/8"W x 2-7/8"H.

7-105 (1)

Champ®

Triple Gauge, Black - Mechanical

Oil Pressure/Water Temperature/Ammeter. Full sweep, back lit & tilt tube mounts. Panel size: 7-1/2"W x 2-7/8"H. Tilt tube adjusts to aim gauge towards driver.

7-116 (1)

Champ®

Triple Gauge, Chrome - Mechanical

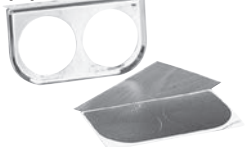

Oil Pressure/Water Temperature/Ammeter. Back lit. Panel size: 7-1/2"W x 2-7/8"H.

Gauge Panels

- Gauge Panels: Heavy-gauge metal for under dash installation of 2-1/16" diameter gauges

7-218 (1)

Champ®

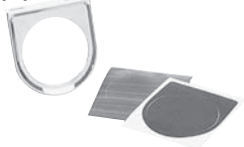

Mounting Panel, Dual Gauge Chrome

5-1/8"W x 2-7/8"H overall dimensions. Includes optional woodgrain & black panel inserts.

7-212 (1)

Champ®

Mounting Panel, Single Gauge Chrome

2-5/8"W x 2-7/8"H overall dimensions. Includes optional woodgrain & black panel inserts.

Gauges - Ammeters

- **Ammeters monitor and measure the level of power generated by vehicle's charging system**
- Show the battery and electrical system condition through charging or discharging
- These gauges will indicate equipment failure, loose or faulty belts and excessive loads
- "Complete Kit" includes gauge, mounting panel with optional wood grain panel inserts and installation hardware
- Full size 2-1/16" diameter gauges feature black faces with crisp white markings and red indicator

7-154 (1)

Champ®

Complete Kit, Chrome - Electric

Narrow sweep & back lit. -60 to +60 amperes. Panel size: 2-5/8"W x 2-7/8"H.

7-103 (1)

Champ®

Gauge Only, Chrome - Electric

Narrow sweep & back lit. -60 to +60 amperes.

7-134 (1)

Champ®

Gauge Only, Chrome - Electric/Economy

Wide sweep, back lit & tilt tube mount. -60 to +60 amperes. Panel size: 2-5/8"W x 2-7/8"H. Tilt tube adjusts to aim gauge towards driver.

7-135 (1)

Champ®

Complete Kit, Chrome - Electric/Low Range

Narrow sweep & back lit. -60 to +60 amperes. Panel size: 2-5/8"W x 2-7/8"H.

G

Gauges - Fuel Level

- **Use heavy-duty electric gauges in cars, trucks, motorcycles, off-road vehicles and industrial applications where normal gauges won't hold up**
- Gauges are vibration, temperature and moisture resistant
- Full size 2-1/16" diameter gauges feature black faces with crisp white markings and indicator

7-193 (1)

Champ®

Gauge Only, HD Chrome - Electric

Wide sweep & back lit. For Ford & Chrysler vehicles with OE sender.

7-194 (1)

Champ®

Gauge Only, HD Chrome - Electric

Wide sweep & back lit. For GM vehicles with OE sender.

7-196 (1)

Champ®

Gauge Only, HD Chrome - Electric

Wide sweep & back lit. For AMC & Jeep vehicles and replacement for Stewart Warner gauges or use Champ 7-199 sender.

7-199 (1)

Champ®

Sending Unit, Fuel

Use with Champ 7-196 electric fuel level gauge. Adjusts for tank depth of 5" to 27". Includes screws and gasket.

Gauges - Oil Pressure

- Proper oil pressure is critical to the life of an engine
- An oil pressure gauge lets you monitor the actual pressure, not just to see the “oil” light when it is too late
- Full size 2-1/16” diameter gauges feature black faces with crisp white markings and red marker
- “Complete Kit” includes gauge, mounting panel with optional woodgrain panel insert, sending unit or tubing, adapters and installation hardware

7-146 (1) Champ®

Complete Kit, Black - Mechanical

270° sweep, back lit & tilt tube mount. Range: 0-100 psi (0-7 kg/cm²). Panel adjusts to aim gauge towards driver.

7-153 (1) Champ®

Complete Kit, Chrome - Mechanical

Narrow sweep & back lit. Range: 0-100 (0-7 kg/cm²). Panel size: 2-5/8W” x 2-7/8”H.

7-150 (1) Champ®

Complete Kit, Chrome - Mechanical

270° sweep, back lit & tilt tube mount. Range: 0-100 psi (0-7 kg/cm²). Panel adjusts to aim gauge towards driver.

7-143 (1) Champ®

Gauge & Sending Unit, Chrome - Electric

Narrow sweep & back lit. Range: 0-100 psi (0-7 kg/cm²).

7-198 (1) Champ®

Gauge & Sending Unit, HD Chrome - Electric

Wide sweep & back lit. Range: 0-100 psi (0-7 kg/cm²). Heavy-duty gauge is vibration, temperature and moisture resistant.

7-121 (1) Champ®

Gauge Only, Chrome - Mechanical

270° sweep & back lit. Range: 0-100 psi (0-7 kg/cm²). Use **7-902** installation kit.

7-133 (1) Champ®

Gauge Only, Chrome - Mechanical/Economy

Narrow sweep & unlighted. Range: 0-100 psi (0-7 kg/cm²). Use **7-902** installation kit.

7-142 (1) Champ®

Gauge Only, Chrome - Mechanical/Low Range

Narrow sweep & unlighted. Range: 0-40 psi (0-3 kg/cm²). For older vehicles, farm & off-road equipment. Use **7-902** installation kit.

7-147 (1) Champ®

Installation Kit, Oil Pressure - Mechanical

Includes brass fittings & 6’ copper tubing. Ideal for applications where tube must pass near manifolds or other hot components.

7-902 (1) Champ®

Installation Kit, Oil Pressure - Mechanical

Six feet of 1/8” plastic tubing and fittings. Use with **7-101**, **7-121**, **7-133** & **7-142**. Plastic tubing is more kink resistant than copper and easier to route.

Dorman® 705-094 (1)

Sales Tip

Electrical gauges have remote sensors eliminating the need for tubes running from the interior of the engine. This simplifies installation and is safer.

Gauges - Tachometers

- Shows RPM of 4-, 6- or 8-cylinder engines. All solid state circuitry
- Install in 12-volt vehicles with negative ground electrical systems, point or electronic ignition
- Not for use on diesel engines or engines with distributorless ignitions
- Metal housing with chrome plated bezels
- Gauges feature black faces with crisp white markings and indicator with adjustable "red line" needle

7-118 (1)

Champ®

Tachometer, Mini Compact - 8,000 RPM

270° sweep, back lit with zero adjustment.

7-108 (1)

Champ®

Complete Kit, Chrome - Mechanical

270° sweep, back lit, 3-5/8" dial with zero adjust.

Gauges - Temperature

G

- Temperature gauges can monitor coolant, oil (useful on highly stressed or turbo charged engines) or automatic transmission fluid temperatures
- Full size 2-1/16" diameter gauges feature black faces with crisp white marks, green & red "safe zone" indication and red needle
- "Complete kit" includes gauge, mounting panel with optional wood grain panel insert, sending unit, adapter fittings and installation hardware

7-125 (1)

Champ®

Complete Kit, Black - Electric

Wide sweep, back lit & tilt tube mount.
Range: 130-290° F/60-140° C. Panel size:
2-5/8"W x 2-7/8"H. Tilt tube adjusts to aim
gauge towards driver.

7-109 (1)

Champ®

Complete Kit, Black - Mechanical

270° sweep, back lit & tilt tube mount.
Range: 130-280° F/50-140° C. Panel size:
2-5/8"W x 2-7/8"H.

7-128 (1)

Champ®

Complete Kit, Chrome - Mechanical

Narrow sweep & back lit. Range:
130-290° F/60-140° C. Panel size:
2-5/8"W x 2-7/8"H.

7-155 (1)

Champ®

Complete Kit, Chrome - Mechanical

Narrow sweep & back lit. Range: 130-
280° F/50-140° C. Panel size: 2-5/8"W x
2-7/8"H.

7-152 (1)

Champ®

Complete Kit, Chrome - Mechanical

270° sweep, back lit & tilt tube. Range: 130-
280° F/50-140° C. Panel size: 2-5/8"W x
2-7/8"H. Tilt tube adjusts to aim towards
driver.

7-132 (1)

Champ®

Gauge & Sender, Chrome - Electric

Narrow sweep & back lit. Range: 130-
290° F/60-140° C.

7-111 (1)

Champ®

Gauge & Sender, Chrome - Mechanical

Narrow sweep & back lit. Range: 130-
280° F/50-140° C.

7-120 (1)

Champ®

Gauge & Sender, Chrome - Mechanical

Narrow sweep & back lit. Range: 130-
280° F/50-140° C. Same as 7-111 but with
96" capillary tube. Ideal for rear engine cars.

7-123 (1)

Champ®

Gauge & Sender, Chrome - Mechanical

270° sweep, back lit & tilt tube. Range: 130-
280° F/50-140° C.

Gauges - Temperature (continued)

7-195 (1)

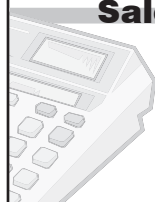

Champ®

Gauge & Sender, HD Chrome - Electric

Heavy-duty, wide sweep & back lit. Range: 100-280° F. Heavy-duty gauge is vibration, temperature and moisture resistant.

Sales Tip

Electrical gauges have remote sensors eliminating the need for tubes running from the interior of the engine. This simplifies installation and is safer.

Gauges - Vacuum & Elapsed Time Meters

7-170 (1)

Champ®

Gauge Only, Chrome - Electric

Elapsed Time Meter. Accurate to within 1% from -65° to +160° F. Operates on 8-50 volts DC, negative ground. Fits 2-1/16" diameter panel opening. Records engine hours or equipment operation time to the tenth of an hour up to 9,999.9 hours.

Sales Tip

Elapsed Time Meters (or hour gauges) are useful for off road and stationary equipment to indicate when service should be performed.

G

Gauges - Voltage

- Monitor battery and charging system operation
- Indicates problems with a dead battery cells and bad voltage regulators
- Full size 2-1/16" diameter gauges feature black faces with crisp white markings and red indicator
- "Complete Kit" includes gauge, mounting panel with optional woodgrain panel inserts and installation hardware

7-171 (1)

Champ®

Complete Kit, Chrome - Electric

Narrow sweep & back lit. Calibrated 8-16 volts. 2-5/8"W x 2-7/8"H overall panel dimensions.

7-197 (1)

Champ®

Gauge Only, HD Chrome - Electric

Wide sweep & back lit. Calibrated 8-16 volts. Heavy-duty gauge is vibration, temperature and moisture resistant.

Gloves

- All gloves are packaged in pairs and “standard size” unless otherwise noted

9-966 (2)

Champ®

Driver's Gloves - Large Soft Tanned Cowhide

Unlined with gunn cut and elastic wrist band.

9-963 (2)

Champ®

Jersey Work Gloves

Brown jersey with matching knit wrist band. Clute cut.

9-968 (2)

Champ®

Leather Palm Safety Cuff Gloves

Leather palms, thumb, first finger & fingertips. Gunn cut.

9-971 (2)

Champ®

Work Gloves - Vinyl Coated

Soft knit full lining with knit wrist. Vinyl coating resists acids and caustics.

Sales Tip

Generate impulse sales! Display gloves on space saving waterfall racks.

G

Grease Gun Accessories

- Adapters, hoses and couplers reach hard to grease areas and fittings

9-1795 (1)

Champ®

Adapter - 12 Position Swivel

Rotates & locks to help reach hard-to-get fittings. Threaded 1/8" NPT. Includes coupler.

9-1882 (1)

Champ®

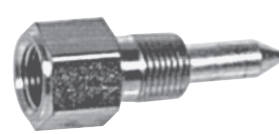

Adapter - Needle Nose

Converts jaw type lube couplers to needle points. Threaded 1/8" NPT. Use with hand grease guns. Dispenses fine line of grease to hard-reach areas.

9-1796 (1)

Champ®

Adapter - Needle Tip

Dispenses a fine, controlled line of grease. Lubricates bearings, spindles & shafts. Threaded 1/8" NPT.

9-1875 (1)

Champ®

Coupler - 90° Grease Gun

For hard-to-reach grease fittings. Comes with large and small sleeves. Recommended working pressure 4,000 psi. Threaded 1/8" NPT.

9-765 (1)

Champ®

Coupler - Grease Gun

Hardened jaws. Neoprene seal. Spring-loaded check valve. Threaded 1/8" NPT. Dorman® 486-961 (1)

9-1877 (1)

Champ®

Coupler - Heavy-Duty Grease Gun

Spring loaded ball check valve. 1/8" NPT female threads. Recommended working pressure 4,000 psi.

Grease Gun Accessories (continued)

9-766 (1)

Champ®

Grease Injector Needle w/Protector Sheath

Hardened steel needle is ideal for sealed bearings. Use for hinge pins & between leaves of springs. Snaps onto grease gun coupler. Sheath, not shown.

9-1803 (1)

Champ®

Hose For Hand and/or Air Operated Gun

18" - up to 5,000 psi. 1/8" NPT male ends.

9-771 (1)

Champ®

Hose For Hand Operated Gun

12" - up to 3,000 psi. 1/8" NPT male ends.

9-773 (1)

Champ®

Hose For Hand Operated Gun

18" - up to 3,000 psi. 1/8" NPT male ends.

9-1555 (3)

Champ®

Multi-Purpose Grease Cartridges

3 oz. mini-size cartridges. For 9-783 and other mini grease guns. Package of 3.

Grease Guns

- All grease guns include extension and coupler

9-762 (1)

Champ®

1 Pint Self-Priming Suction Gun

Knurled steel barrel, neoprene plunger & 11" hose. Use with non-corrosive fluids.

9-1799 (1)

Champ®

14 oz. Air Operated Gun

Delivers charge of grease up to 6,500 psi. One-hand operation with trigger press action. Requires 90-150 psi air supply. Accepts 1/4" NPT air line fitting. Three - way loading: cartridge, dispenser or bulk.

9-763 (1)

Champ®

14 oz. Heavy-Duty Lever Action Gun

Ball check valve delivers up to 10,000 psi. Knurled steel body. Three - way loading: cartridge, dispenser or bulk.

9-1804 (1)

Champ®

14 oz. Heavy-Duty Variable Stroke Gun

Develops up to 10,000 psi pressure. Full pressure with short strokes in close spaces. Knurled body has non-slip lever handle. Three - way loading: cartridge, dispenser or bulk. Features loader and bleeder fittings.

9-1800 (1)

Champ®

14 oz. One hand Trigger Action Gun

Heavy-duty gun delivers up to 6,000 psi. Knurled steel barrel. Positive action plunger. Two - way loading: cartridge or bulk.

9-783 (1)

Champ®

3 oz. Mini-Size One Hand Gun

Trigger operated, develops up to 3,500 psi. Uses 3 oz. cartridge (9-1555).

Horns & Back-Up Alarms

9-2951 (1) Champ®

Back-Up Alarm - 107dB

Extra loud alarm is perfect for large trucks, farm and off-highway equipment. High frequency "beeping" pulse warns when you are backing up. Wires into existing backup light circuit (instructions included).

9-2950 (1) Champ®

Back-Up Alarm - 87dB

Clear, but unobtrusive alarm is ideal for cars, light trucks, golf carts & fork lifts. High frequency "beeping" pulse warns when you are backing up. Wires into existing backup light circuit (instructions included).

9-1783 (1) Champ®

Blaster Horn, High Tone, 500 Hz

The extra volume, 132dB at 4", helps command attention in noisy and high speed traffic. Universal for single or dual terminal installations. Includes mounting bracket and hardware. 4" x 3-1/2" x 2-1/2".

9-1784 (1) Champ®

Blaster Horn, Low Tone, 420 Hz

The extra volume, 132dB at 4", helps command attention in noisy and high speed traffic. Universal for single or dual terminal installations. Includes mounting bracket and hardware. 4" x 3-1/2" x 2-1/2".

9-1781 (1) Champ®

Disc Horn, High Tone, 430Hz

130dB rated. 12-volt disc-style horn. Single or dual terminal connection. Universal bracket for easy installation.

9-1782 (1) Champ®

Disc Horn, Low Tone, 335Hz

130dB rated. 12-volt disc-style horn. Single or dual terminal connection. Universal bracket for easy installation.

9-1793 (1) Champ®

Replacement Horn, High Tone, 450Hz

Universal single or dual terminal installation. Rated 125dB (minimum) at 4". Size: 4" x 3-1/2" x 2-1/2".

9-1794 (1) Champ®

Replacement Horn, Low Tone, 360Hz

Universal single or dual terminal installation. Rated 125dB (minimum) at 4". Size: 4" x 3-1/2" x 2-1/2".

Sales Tip

Display all 8 items in 1 compact wall assortment. See Assortment section.

Interior Accessories

9-1858 (1) Champ®

"For Sale" Sign

12" x 8" weatherproof plastic sign. Printed in black and fluorescent red. Punched for hanging.

7-972 (1) Champ®

Clothes Hanger Bar

Expands from 31" to 60". Corrugated plastic keeps hangers from sliding. Soft plastic tips help prevent scuffing.

7-846 (1) Champ®

Leather-Grain Vinyl Shifter Knob

1-13/16" diameter, cushion feel. Fits 5/16", 3/8" & 1/2" shafts. Five popular shift patterns. Includes self-adhesive metallic inserts for popular 3-, 4- & 5-speed shift patterns. Stitched vinyl cover has cushioned feel.

Interior Accessories (continued)

9-1251 (1)

Champ®

Magnetic Key Holder

Strong magnet holds key locker securely to flat metal surface. Slide-open metal holder is 2-1/2" x 1".

7-892 (1)

Champ®

Steering Wheel Knob - OFF ROAD

Clamps onto steering wheel rim and allows one-handed spinning of the wheel. Heavy-duty design for tractors, farm and off-road equipment, etc. Enamel finished hardwood spinner knob. Rust resistant plated steel bracket.

9-1684 (1)

Champ®

Steering Wheel Lock

Highly visible theft deterrent. Twin hook design for greater security.

7-848 (1)

Champ®

Strap-On Certificate Holder

Clear acetate window protects documents. Holds documents up to 3-1/2" x 6-1/4". Straps onto sun visor.

Sales Tip

Promote the top selling interior & exterior accessories in one compact display. See pages 57-58

License Plate Brackets & Frames

- Use to replace broken OE plate brackets and frames as a retro fit for vehicles that didn't originally have front plates

7-315 (1)

Champ®

Frame Black Molded Plastic

Textured molded plastic frame. 12-1/4" x 6-1/2" x 1-5/16". Includes mounting hardware.

7-312 (1)

Champ®

Frame Deluxe Die-Cast Metal

Tire and Tube Testing Tank

Galvanized after forming for positive seal. 31-1/4" x 11" x 12" in size. For standard & wide auto and light truck tires.

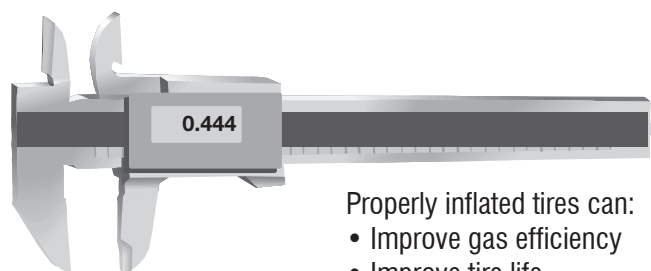

9-1065 (1)

Champ®

Tire Swab

Makes application of tire lubrication fast & easy. 2-1/2" diameter x 6-3/4" tufted cotton swab. Twisted wire handle, 10-1/2" in length.

Tech Tip

Properly inflated tires can:

- Improve gas efficiency
- Improve tire life
- Reduce chance of blow-outs

See page 39 for tire gauges

Tire Valve Parts

- To insure proper balance, metal valve extensions and caps should be mounted on wheel before balancing

9-2618 (2)

Champ®

Valve Extensions - 7"

7" long dual wheel w/bracket. Long lasting braided metal hose cover. Heavy-duty wheel clamp.

Tire Valves - Tubeless

- Each includes valve core and cap
- Replace tire valves whenever replacing a tire to prevent leaks from old valves
- Snap-in valve stems are available carded in quantities of 4, or boxes of 10 and 50

Champ®

C-Clamp - 4"

Heat treated malleable iron frame. Free-turning swivel pressure buttons. 4" maximum capacity. For a complete selection of C-Clamps, refer to the Metal Work! Welding Accessories section, page 91-92.

9-1366 (1)

Champ®

File - 12" Flat Mill - Bastard Cut

Single cut for smoothing and finishing metal. Ideal for sharpening tasks.

T

9-344 (10)

Champ®

Hacksaw Blades - 12"

High-speed molybdenum Steel. 24 teeth per inch. Holds edge and sets longer. Cuts harder materials than carbon steel blades.

9-1680 (1)

Champ®

Hacksaw Frame - Die-Cast Aluminum

Tubular steel frame. Adjusts to accept 10" & 12" blades. Thumbscrew blade tensioner with molded handgrip. Includes 12 blades.

95-1152 (1)

Champ®

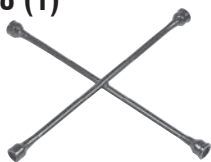

Hammer Handle - Solid Hardwood

36" handle for 10 lb to 16 lb sledge hammers.

Tools (continued)

9-1668 (1)

Champ®

Lug Wrench - 20" Four Way

All steel, hot forged for extra strength. Fits tire mounting lug nuts of most vehicles. Four hex socket sizes: 11/16", 3/4", 13/16" & 7/8".

9-1699 (10)

Champ®

Razor Blades, Single-Edge Steel

Industrial quality blades for scrapers. Package of ten.

9-1698 (1)

Champ®

Scraper - Retracting

Metal handle with retractor button. Holds single edge steel or plastic blade. Use with Champ® blades: 9-1699. Includes one steel blade.

9-1787 (1)

Champ®

Scraper - Swivel Handle

Handle swivels and locks in three positions. Uses single edge steel or plastic blade. Use with Champ® blades: 9-1699. Includes one steel blade.

9-1985 (8)

Champ®

Steel Wool - Grade 00 (Fine)

Handy size pads about 3" x 4" x 3/4" thick. Prepares surfaces for the final finish. Cleans copper and brass. Package of 8. Champ® 9-1986 (8) Grade: Medium

9-931 (1)

Champ®

Tape measure - 12 ft. 1/2" Steel

1/2" wide yellow epoxy coated tape. Graduated in 1/16" (first foot in 1/32"). Plastic case, thumb lock and belt clip.

9-574 (1)

Champ®

Tubing - Double Flaring Tool Kit

Make single or double flares on tubing up to .040" wall. Hinged steel block, wing nuts & serrated cavities to clamp tube securely. Forged steel compressor has "T" handle. Use with 3/16", 1/4" 5/16", 3/8" 7/16", 1/2" & 5/8" OD tubing.

9-1789 (1)

Champ®

Utility Knife Blades

Five heavy-duty blades for 9-1788 and other knives.

9-1788 (1)

Champ®

Utility Knife with Retractable Blade

Blade locks in four positions: fully extended, carton opening, slitting and fully retracted. Die-cast metal handle stores extra blades. Packaged with three blades.

Sales Tip

For First Aid Kits, see safety products in the *Metal Work!* section.

Tools - Tune-Up and Automotive

9-1834 (1)

Champ®

Antifreeze Tester - Professional

Glass float, coded in Fahrenheit and Centigrade. Works with hot or cold coolant. Indicates freeze points for ethylene glycol antifreeze from +10° to -30°F and methanol from +10° to -40°F.

9-1830 (1)

Champ®

Antifreeze Tester - Deluxe

Test strength of ethylene glycol antifreeze. Hot or cold. Direct reading dial shows freeze and boiling points in Fahrenheit and Centigrade.

9-1300 (1)

Champ®

Antifreeze Tester - Mini in Vinyl Pocket

Floating balls indicate degrees of freezing & boiling protection. Works with hot or cold ethylene glycol antifreeze.

9-1295 (1)

Champ®

Circuit & Spark Plug Tester

Tests high and low voltage. Internal lamp indicates presence of 12 volts. Neon bulb checks for high voltage secondary. Locates plug wire breaks and fouled plugs.

9-1790 (1)

Champ®

Grinding Compound

Excellent fluid abrasive for seating engine valves. 2 oz. each of both coarse (120 grit) & fine (280 grit) silicon carbide compound (grease mix).

117300 (1)

Champ®

Thread Repair Kit - Spark Plugs

Save the cost of a new cylinder head. Use kit to retap oversize and insert steel inserts. For use with 14mm spark plugs. Kit includes special combination tap and reamer, four inserts in 3/8", 7/16", 1/2" and 3/4" lengths.

9-2531 (1)

Champ®

Timing Light - Inductive

Inductive pickup with protective nose. For Standard, HEI & DIS systems. Long leads with heavy-duty clips. Brilliant Xenon tube for use in bright areas.

9-1074 (1)

Champ®

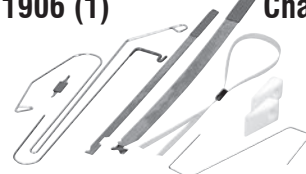

Unlock - Emergency Door Opener

24" long double-ended unlocking tool. Hook end & split-fork end fits most locks. **HELP!® 75491 (1) Carded**

9-1906 (1)

Champ®

Unlock - Universal Tool Kit

11-piece tool kit. Will unlock over 95% of all cars and trucks. Kit includes gas cap tool, wide bar, thin bar, dual tool, plastic latch tool, side lock tool, 2 window wedges, 2 bar handles, GM type door tool and instructions. For professional and/or emergency use only.

Tow Straps & Ropes

7-869 (1)

Champ®

Tie Down - Steel Ratchet Nylon

Adjusts 4' to 15'. 1,500 lbs rated capacity. Ratchet action to bind and tie down loads. Positive locking ratchet has quick release lever.

7-306 (1)

Champ®

Tow Rope - Polypropylene

Size: 5/8" x 12'. 6,000 lbs breaking strength. Rot and weather-proof braided rope. Steel hooks included.

7-305 (1)

Champ®

Tow Strap - Nylon Web

Size: 2" x 20'. 18,000 lbs rated capacity. Stretch and recoil action up to 20%. Lightweight nylon with reinforced sewn loops.

Tow Straps & Ropes (continued)

7-307 (1)

Champ®

Tow Strap - Polyester Web

Size: 2" x 15'. 10,000 lbs rated capacity. Weather and chafe-resistant strapping with hooks.

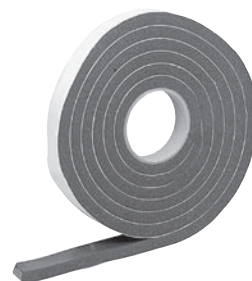

Weather Stripping

- Insulating tape for RV, boat, car or home

- Sanding Discs & Materials

WELDING PRODUCTS

- Welding & Brazing Rod
- MIG Wire & Accessories
- Shop Tools, Cable Lugs, Cables and Other Welding Accessories

PRODUCT SAFETY INFORMATION

WELDING SAFETY PROCEDURES:

Equipment Inspection:

Use the disconnect switch at the breaker box to turn off input power prior to working on equipment. Make sure all equipment is installed in accordance with local and national electrical codes. Ground all equipment according to manufacturer's recommendations. Be sure cables make good electrical connections as close to the work piece as possible. Do not dip electrode into water for cooling.

Personal Protection:

Wear dry leather gloves, a protective jacket, and helmet with the proper shaded lens for maximum protection against shocks, burns, and arc rays. Use a lens and filter which conforms to ANSI Z87.1 standards to protect your eyes from arc rays and sparks. Avoid breathing fumes and gases when welding. Do not weld near vapors from spraying and cleaning operations to avoid fires and explosions. Use adequate ventilation in all work areas to prevent injury. Remove all fire hazards from a welding area or cover them with a fire retardant material. Use suitable work clothes made of flame-resistant materials for protection. Protect other personnel in work area by using a non-flammable screening and warn them not to watch the arc or hot spatter.

GRINDING, CUTTING AND POWER BRUSHING SAFETY PROCEDURES:

Power Brushes and Grinding Tools are safe and dependable tools that are designed, manufactured, inspected and tested by experts to assure consistent high quality. We recommend that all tools be prudently operated. All operators of power brushes should be familiar with ANSI B165.1 and ANSI B 165.2 -1988 "Safety Requirements - Staple Set Power Brushes."

Copies of these standards are available at public libraries and from the American National Standards Institute, Inc. (ANSI), 1430 Broadway, New York, NY 10018; or the American Brush Manufacturer's Association, 1900 Arch Street, Philadelphia, PA 19103.

Below, we have summarized some of the operator care and use safety requirements. It is mandatory that you read and observe all of these safety requirements.

1. Inspection:

Upon receipt, make sure brushes and wheels were not damaged during shipment. If damaged, don't use them.

2. Storage and Handling:

Repackage and store brushes, cutting and grinding wheels in their original boxes or equivalent. Do not expose to high humidity, heat, acids, fumes, water, or other liquids which might adversely affect them. Do not allow brush fill or components to become distorted, as this may cause an

unbalanced condition when run. Do not allow foreign matter to accumulate on or become lodged in the tool face. Do not use a wheel or brush that has been dropped.

3. Machine Condition:

Maintain the machine in a safe operating condition. Provide adequate power to maintain spindle speed and adequate exhaust for the application. Use a work rest. Adjust the work rest so that no more than a 1/8" opening is between the rest and the tool. Adjust the work rest only when the tool is not in motion. Do not use a wheel or brush larger than the machine is designed to accommodate. If a spindle nut is used to secure the wheel or brush, the direction of the thread should be in such relation to the direction of rotation that the nut will tend to tighten as the spindle revolves. If flanges are used, they should be identical in size and radial bearing surface to avoid cross-bending pressure. Threaded spindles should be long enough to allow full nut mounting.

4. Mounting Brushes, Cutting and Grinding Wheels:

Before mounting, inspect wheels and brushes for damage, rust, oxidation, or other types of deterioration. If not in good condition, do not use it.

Arbor hole and spindle diameter should be the same. Wheel or brush should fit freely on the spindle. If equipped with an adaptive bushing, the wheel or brush - not the bushing - should be gripped on the machine spindle. Flanges, if used, should be compressed with sufficient force to anchor the wheel or brush, but should not damage the fill material, compress the thickness of the wheel or brush through the hub, or otherwise distort the wheel or tool.

Shank type tools: The shank should be inserted into the chuck or collet as far as possible, with the minimum possible overhang of the tool, and tightened securely.

5. Speed:

Do not exceed the MSFS (MAXIMUM SAFE FREE SPEED) for which the wheel or brush is rated. Maximum Safe Free Speed is the maximum R.P.M. at which the brush should be run with no work applied (spinning free) and is NOT the recommended operating speed. The recommended operating speed should be determined by the application, but should never exceed the MSFS for which the wheel or brush is rated. Users must check spindle speed frequently and maintain records of these checks.

6. Protective Eyewear, Clothing and Equipment:

Protective eye equipment must be used by all operators. Full face protection for the operator and other protective equipment and clothing must be required by the employer if such equipment can prevent possible injuries. Other personnel in the work area must wear eye protection and other safety equipment to prevent injury. An enclosure should be used to isolate any hazardous operation from the operator and other personnel.

(continued on next page)

7. Machine Guards:

Keep all machine guards in place. Use grinding or cutting wheels and rotating brushes only on machines with safety guards.

8. Starting the Tool:

Before starting the job, inspect the machine to be sure it is ready to use and that the wheel or brush is fastened securely. Tools must be run at operating speed with all required safety guards in place or in a protective enclosure for at least one minute before applying work. During this time, no one should stand in front of or in line with the wheel or brush.

9. Supervision:

Persons competent in grinding, cutting and brush technology should be assigned to the mounting, care, and inspection of tools and machinery. It is the responsibility of the employer to fully inform all operating personnel and others in the area about all of the hazards relating to power tool use and to train them in the proper use of grinding and cutting wheels, brushes, safety rules, correct speeds, the need for eye and face protection, as well as other protective equipment and safe procedures.

WARNING:

In normal grinding, cutting and power brushing operations, the material being removed, such as burrs, scale, dirt, weld slag, or other residue, will fly off the tool with considerable force along with wheel grit and brush filaments, which break off due to fatigue.

Never use the side of a wheel or brush unless it was designed for that specific purpose.

Never jam a workpiece into the wheel or brush.

The potential of serious injury exists for both the power tool operator and others in the work area (possibly 50 feet or more from the tool). To protect against this hazard, operators and others in the area must wear SAFETY GOGGLES or FULL FACE SHIELDS OVER SAFETY GLASSES WITH SIDE SHIELDS, along with PROTECTIVE CLOTHING.

You must follow all operator and safety instructions, as well as common safety practices which will reduce the likelihood or severity of physical injury.

BRUSHING PROBLEMS: DO NOT ALLOW UNSAFE CONDITIONS TO CONTINUE.

Occasionally, due to worn bearings, a bent spindle, an unusual application, operator abuse or inappropriate use, a brush or wheel may fail. A wheel or brush which is not received in acceptable condition for trouble-free operation may also fail. Do not use or continue to use a failed wheel or brush or one which is functioning improperly (i.e., throwing filaments, nicked, warped, out-of-balance, etc.), as this increases the possibility for further failure and hazard of injury. The cause of the failure should be evaluated and corrected.

WARNING

FAILURE TO OBSERVE SAFETY PRECAUTIONS MAY
RESULT IN INJURY.

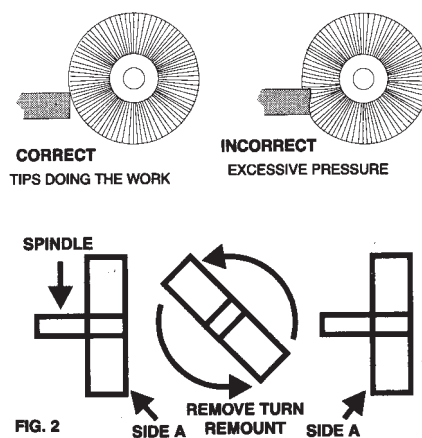

ABMA

SAFETY COMMITTEE

INDUSTRIAL BRUSH DIVISION

AMERICAN BRUSH MANUFACTURERS ASSOCIATION

Self-Sharpening: When using wire wheel brushes, periodically reverse the direction of rotation to take advantage of the self-sharpening action that will result. This may be accomplished by removing the brush from the spindle and turning it side for side, and remounting it securely. See Fig. 2.

Cut-Off Wheels

- Reinforced aluminum oxide wheels cut steel for exhaust, body and general metal work. **Not for fiberglass or materials other than steel.**
- CAUTION:** Always wear safety goggles and full face protection
- Never exceed maximum RPM

Tech Tip

Maximum RPM's apply only when wheels are properly mounted with no more than 1/2" of any mandrel extending from the collet and with the wheel running true.

Tech Tip

Ideal for high speed air and electric drills.

Rotary Files & Rasps

- Tough enough for many jobs — made from high carbon steel
- Can be used on bronze, aluminum and mild steel as well as plastic and fiberglass
- The rasps are ideal for quick material removal in hard-to-reach places
- 1/4" shank and a maximum speed of 2,500 RPM

Sales Tip

Many styles and sizes of Part Cleaning Brushes are available in Champ:

- 9-194** Mixed Tampico Bristles 11-1/4" overall length
- 9-195** Polypropylene Bristles 11-1/2" overall length
- 9-198** Mixed Tampico Bristles 12" overall length

Brushes - Utility

09031 (2) MetalWork!™

Acid Brush, Large

1/2". For application of solder flux to work area.

Champ 9-204(1)

09030 (2) MetalWork!™

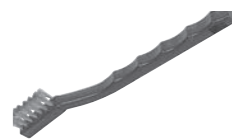

Acid Brush, Small

3/8". For application of solder flux to work area.

Champ 9-202(1)

Champ 9-205(3)

09003 (1) MetalWork!™

Brass Wire Brush - Plastic Handle

7-1/4" in length. Soft bristles to avoid scratches. Great for cleaning aluminum, painted or plastic parts without scratching.

09004 (1) MetalWork!™

Brass Wire Brush - Wood Handle

7-3/4" in length. Ideal for aluminum welding cleanup.

09005 (1) MetalWork!™

Brass Wire Brush - Wood Handle

8-3/4" in length. Will not scratch stainless or polished steel.

09021 (1) MetalWork!™

Deluxe Parts Cleaning Brush

Polypropylene bristles with 10-1/2" handle. One-piece construction. Size 10 brush. **Champ 9-185(1)**

09002 (1) MetalWork!™

Stainless Steel Tinning Brush

Tempered bristles - 8-3/4" in length.

09017 (1) MetalWork!™

Stainless Steel Wire Brush

13-7/8" in length. Ideal for hard-to-reach areas.

09000 (1) MetalWork!™

Stainless Steel Wire Brush

7-1/8" in length. Rustproof, scratch-style brush with plastic handle. Great for cleaning steel parts.

09001 (1) MetalWork!™

Stainless Steel Wire Brush

7-3/4" in length. A must for aluminum welding cleanup.

Champ 9-187(1)

09018 (1) MetalWork!™

Stainless Steel Wire Brush

9-1/2" in length. Wood shoe handle with durable bristles.

09010 (1) MetalWork!™

Steel Wire Brush - Wood Handle

13-1/2" in length. Extremely heavy-duty bristles.

Champ 9-190(1)

Champ 9-189(1) with scraper

09011 (1) MetalWork!™

Steel Wire Brush - Wooden Shoe Handle

10-1/4" in length. Heavy-duty steel bristles. **Champ 9-200(1)**

09026 (1) MetalWork!™

Tube Brush

8-1/2"L x 3" nylon bristles. Ideal for cleaning carburetors & brake cylinders.

Oxy-Acetylene Hose Repair

08041 (1)

MetalWork!™

Hose Repair Crimping Tool

Designed to make it fast and easy to perform hose fitting repairs.

08078 (2)

MetalWork!™

Oxy-Acetylene Hose End Repair Kit

1/4" hose. Includes 2 complete hose end sets. Use **08041** crimping tool to crimp to hose.

08081 (2)

MetalWork!™

Oxy-Acetylene Hose Splicer Kit

Includes 2 splice couplers for 1/4" hose. Safely repairs cuts and nicks in welding hoses. Use **08041** crimping tool to crimp to hose.

Tech Tip

Protect yourself from slag by wearing protective clothing and goggles.

Store gas cylinders away from arcs, extreme heat and flames.

Oxy-Acetylene Hoses

- Kink-proof, flexible, double hoses with neoprene cover
- 100 PSI rating

Dimensions	MetalWork! Part # (Qty.)

Oxy-Acetylene Tools & Accessories

08086 (1) MetalWork!™

Gauge - 2" Acetylene

Range - 0-30 PSI.

08085 (1) MetalWork!™

Gauge - 2" Oxygen

Range - 0-200 PSI.

08010 (1) MetalWork!™

Oxy-Acetylene Lighter (Single Flint)

Low cost, lightweight, dependable operation. Equipped with large file and hood.

08012 (1) MetalWork!™

Oxy-Acetylene Lighter (Triple Flint)

When flint is worn, rotate new flint into position. High quality striker with a rugged frame, durable round file, three large flints and a bright plated finish.

08020 (1) MetalWork!™

Oxy-Acetylene Tip Cleaner (Regular)

Light, easy to use kit features circle design to provide 60 cleaning edges per inch. Kit includes file. Fits all tip sizes.

08011 (5) MetalWork!™

Striker Renewal Flints (Single Flint)

Replacement flints for 08010 lighter.

Oxy-Acetylene Tools & Accessories (continued)

08013 (1) MetalWork!™

Striker Renewal Flints (Triple Flint)

Replacement flints for **08012** lighter.

08023 (1) MetalWork!™

Tip Drill Set

Pencil-type holder with 12 drills inside with pocket clip. Cleans and trues acetylene cutting and welding tip orifices. Replacement drills available.

Oxy-Acetylene Torch Kits

08006 (1) MetalWork!™

Econ-O-Line Gas Welding & Cutting Kit

Designed for light or medium duty applications. Can weld up to 1/8" and cut up to 3/8". Larger nozzles and tips can weld up to 1-1/4" and cut up to 3".

08001 (1) MetalWork!™

Gas Welding & Cutting Kit, Medium Duty

For the craftsman or mechanic. Welds up to 5/64" cuts up to 1/2" with supplied tip & nozzle. Includes welding handle, #0 tip, cutting attachment & size 0-3-101 tip, heavy duty oxygen & acetylene regulators, 3/16" x 20' twin hose, goggles & a striker.

Tech Tip

Keep tip holes clean for best cutting results.

Make sure all gas cutting equipment is kept free of oil and grease to avoid fire and injury.

Hearing Protection

09655 (1) MetalWork!™

Ear Muffs

Lightweight for comfort. Tough head strap for secure pressure and durability. Extra wide foam cushions for sure sealing and comfort. For most common levels of industrial noise. Self Aligning and adjustable.

09659 (1) MetalWork!™

Ear Plugs - Disposable

Protect against loud noises with acoustic fibers and foam. Perfectly shaped plastic ear plugs are easy to insert and remove. Five pair in a reclosable pouch.

09658 (1) MetalWork!™

Ear Plugs - Large Reusable

Soft, silicon material for long lasting durability. Available with safety neck cord for easy removal without loss. Available in two sizes. For protection from very loud noises.

09657 (1) MetalWork!™

Ear Plugs - Medium Reusable

Soft, silicon material for long lasting durability. Available with safety neck cord for easy removal without loss. Available in two sizes. For protection from very loud noises.

Tech Tip

To insure personal protection, it is recommended to wear safety goggles, gloves and ear plugs.

Safety Glasses

09604 (1) MetalWork!™

Protective Spectacles, #2 Green

Stylish, top quality glasses have a universal bridge and flat folding side shields. 57mm safety lens.

09603 (1) MetalWork!™

Protective Spectacles, Clear

Stylish, top quality glasses have a universal bridge and flat folding side shields. 57mm safety lens.

09599 (1) MetalWork!™

Safety Glasses, Clear

High quality safety glasses with plastic side shields. One size fits all. Not for oxy-acetylene welding.

Champ 7-759 (1)

09598 (1) MetalWork!™

Safety Glasses, Smoke

High quality safety glasses with plastic side shields. One size fits all. Not for oxy-acetylene welding.

09595 (1) MetalWork!™

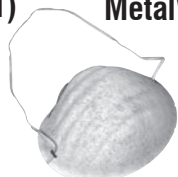

Safety Glasses, Visitor

Clear. Inexpensive, one size fits all safety glasses that will fit over eyeglasses.

Safety Goggles, Shields & Accessories

09666 (1) MetalWork!™

Dust Masks - Custom

For lab, grinding, sanding and dusty areas. Extremely absorbent filter material & lightweight. **NOTE:** Do not use for paint and other fumes.

09675 (1) MetalWork!™

First Aid Kit

Ideal for shop, office, home, car, boat, etc. Contains sterile gauze pads, 1" x 3" adhesive plastic strips, pre-moistened towelettes, one roll adhesive tape, Latex exam gloves, antibiotic ointment, scissors, first aid pamphlet and more.

Champ 9-982(1) shop

09571 (1) MetalWork!™

Goggles - Acetylene

Rectangle shaped goggles designed to wear over regular glasses or with a magnifying lens. Six vents prevent fogging. Soft vinyl forms to head. Complete with a 4-1/4" x 2" shade 5 lens and a pit resistant cover lens.

09576 (1) MetalWork!™

Goggles - Clear Plastic

Good general purpose goggles for industry, workshop, farming, sports, etc. Fits over regular eyeglasses. Perforated for good ventilation.

09577 (1) MetalWork!™

Goggles - Eye Cup

One piece molded plastic eyecups. Comfortable, face fitting contour. Complete with 50mm round shade #5 welding lens.

09578 (1) MetalWork!™

Goggles - Flip-Up Oxyacetylene

Flip up filter lens with stationary protective lens. Fits over eyeglasses. Standard 50mm round shade #5 lens.

09572 (1) MetalWork!™

Goggles - Fog Free Vented

Easy viewing, ventilation and comfort. #5 acetate lens. Conforms to the eye area for a light-tight seal.

09575 (1) MetalWork!™

Goggles - Green Plastic

Light green shaded lens with clear sides. Not for oxy-acetylene welding.

09579 (1) MetalWork!™

Goggles - Lift Front

Soft flexible frame, indirect vent, fits comfortably over glasses. Complete with shade #5 lens and cover plate. Accommodates 2" x 4-1/4" lens.

09585 (1) MetalWork!™

Grinding Shield - Clear

Full face grinding shield available with clear or green shield. Lightweight and fully adjustable. Made of poly-type molded plastic which is non-warping. Equipped with posi-lock headgear.

09746 (1) MetalWork!™

Welding Cap, Black - Size 7-3/8

Black, sporty looking cap to protect hair from hot sparks and slag. 7-3/8". Also 6-3/4" as part number **09741**.

09707 (1) MetalWork!™

Welding Caps

Medium, black. Also available: size large, part number **09708**; size extra large, part number **09709**.

Welding Gloves

09617 (1) MetalWork!™

Leather Welding Gloves

Brown, protects against hot metal, slag & sparks.

09616 (1) MetalWork!™

Leather Welding Gloves - Lined

Gray, heat-resistant with gauntlet. 13-1/2" long. Economical choice.

09618 (1) MetalWork!™

Leather Welding Gloves - Lined

High quality glove with gauntlet. 13-1/2" long.

09864 (1) MetalWork!™

Leather Welding Gloves - Lined

Fleece lined & heat resistant. Most professional glove.

09619 (1) MetalWork!™

Leather Welding Gloves

Protects against hot metal, slag & sparks.

Welding Helmet Lenses

- Available in various densities for many welding applications. Darker lenses for higher amperage
- Lighter lenses for indoor and light welding
- Clear cover lenses are high quality material to protect shaded lenses
- Gold lenses reflect radiated energy from arc and provides maximum protection from ultraviolet and infrared radiation

Welding Helmets & Accessories

09521 (1) MetalWork!™

Headgear

Ratchet style. Easy adjusting straps for head size and crown fit. Pliable, long lasting plastic that will not stiffen. Stays cool and comfortable. Ratchet type adjustment for head band and pin type adjustment for crown strap. Fits helmets: **09512** and **09514**.

09524 (1) MetalWork!™

Headgear

Ratchet style. Adjusting straps for head size & crown fit. Pliable, long lasting plastic that will not stiffen. Stays cool & comfortable. Pivot points extend from head band to eliminate pressure on sides of head. Fits helmets: **09500**.

09500 (1) MetalWork!™

Helmet - Black Polyethylene

Lightweight with extended bib to deflect spatter. Fixed front with a 4-1/2" x 2" shade 11 lens and clear plastic cover.

09512 (1) MetalWork!™

Helmet - Nylon

Tough, lightweight helmet with the convenience of a 4-1/4" x 2" shade 10 flip-up lens and clear cover. Black with ratchet type headgear.

09514 (1) MetalWork!™

Helmet - Nylon

Tough, lightweight helmet with the convenience of a 4-1/2" x 5-1/4" shade 10 flip-up lens and clear cover. Black with ratchet type headgear.

Tech Tip

Personal Protection:

- Wear dry leather gloves, a protective jacket, and helmet with the proper shaded lens for maximum protection against shocks, burns, and arc rays.
- Use a lens and filter which conforms to ANSI Z87.1 standards to protect your eyes from arc rays and sparks. Avoid breathing fumes and gases when welding.
- Do not weld vapors from spraying and cleaning operations to avoid fires and explosions. Use adequate ventilation in all work areas to prevent injury.
- Remove all fire hazards from a welding area or cover them with a fire retardant material.
- Use suitable work clothes made of flame-resistant materials for protection.
- Protect other personnel in work area by using a non-flammable screening and warn them not to watch the arc or hot spatter.

Solder

- Soldering is a fast, simple and inexpensive way to permanently join electrical wires and metal parts
- In tin/lead solder alloys, the alloy content is expressed in percent of tin and lead or tin and antimony with tin content always listed first
- For example, 40/60% solder is 40% tin and 60% lead

Acid Core							
For non-electrical applications. Ideal for many types of metals: galvanized steel, brass, nickel & copper. Works well on fitting connections & sheet metal joints. Acid flux acts as a cleaning agent & is water soluble. Can be cleaned off with water.

Solder Kits & Accessories

07312 (1) MetalWork!™

Silver Solder

NEW!

96/4% Tin-Silver LEAD FREE. Wire Diameter: 1/16", Weight: 1 oz. Designed for use with chrome plate, brass, nickel, copper, and stainless steel. Perfect for the home hobbyist. Must use with flux.

07310 (1) MetalWork!™

Silver Solder Kit

96/4% Tin-Silver LEAD FREE. Wire Diameter: 1/16", Weight: 1 oz. Designed for use with chrome plate, brass, nickel, copper, and stainless steel. Perfect for the home hobbyist. Flux and flux brush included in kit.

07318 (1) MetalWork!™

Soldering Liquid Flux

NEW!

Soft soldering and tinning flux. For virtually all metals other than aluminum, magnesium or titanium. 200 - 600 F. 2 oz.

07317 (1) MetalWork!™

Soldering Paste Flux

For joining copper to copper or copper to brass connections.
Champ 9-1309

07567 (1) MetalWork!™

Soldering Iron

110/30 Watt. 5 ft. Cord. 5/32 (4mm) tip.
U.L. Listed.
Champ 9-1332

Tech Tip

Read recommended application for solder to ensure the correct type is used.

Brazing Rods & Flux

- Flux and brazing rod products for repairing copper, steel, brass, cast and galvanized iron
- High quality, low fuming products for excellent results and smooth appearance
- For best results, use flux products to clean surface before brazing

Bare Brazing Rod		
High quality, low fuming rods that tin easily and offer great wear resistance and high strength. Fuses with copper, brass, steel, galvanized and cast iron. Brazing flux required.		
Size	Package Type	MetalWork! Part # (Qty.)
3/32" x 36"	Job Pack	07251 (1)
1/8" x 36"	Job Pack	07252 (1)

Brass Brazing Flux		
To clean work piece before brazing. Use for best possible results.		
Size	Package Type	MetalWork! Part # (Qty.)
1/2 lb.	1/2 Lb.	07260 (1)

Flux Coated Brazing Rod		
Strong, wear resistant, low fume rod of high quality. Easy to tin, excellent for all brazing jobs. Quality coating cuts brazing time on autos, tanks, and pipes. Fuses with steel, copper, brass, galvanized and cast iron.		
Size	Package Type	MetalWork! Part # (Qty.)
3/32" x 36"	Job Pack	07256 (1)
1/8" x 36"	Job Pack	07257 (1)

Oxy-Acetylene Rods		
Copper coated, mild steel rods for high quality welds that are strong and ductile. Copper coating prevents corrosion and rust. An excellent general purpose rod for commercial, shop, home projects, and maintenance.		
Size	Package Type	MetalWork! Part # (Qty.)
1/16" x 36"	Job Pack	07253 (1)
3/32" x 36"	Job Pack	07254 (1)
1/8" x 36"	Job Pack	07255 (1)

Super Sil-Flo - Self Fluxing		
Self-fluxing on copper. Substitute for 6% to 15% silver content brazing alloys for copper installations. Works well for joints and sleeves, couplings, fittings, copper tubing, electrical connections & water lines. Not recommended for iron and steel.		
Size	Package Type	MetalWork! Part # (Qty.)
18"	Job Pack	07242 (1)

MIG Accessories

Spot Weld Nozzle

MIG Wire

Aluminum Mig Wire (ER4043)			
Popular filler metal chemistry with silicon to lower melting point & provide fluidity. Moderately soft - good weld appearance. Preferred as a filler metal for its operating characteristics. Ideal for constant high temperature apps. Non-heat treatable.			
Wire Size	Weight	Spool Size	MetalWork! Part # (Qty.)
.030"	1 lb.	4"	07280 (1)*

Gasless Flux Cored Wire (E71T-GS)			
General purpose wire is ideal for auto body repair & light fabrication on most thin metals. High carbon content produces great welds on carbon & galvanized steels. No CO2 or Argon CO2 gas shielding required. Can be used with AC or DC reverse polarity.			
Wire Size	Weight	Spool Size	MetalWork! Part # (Qty.)
.030"	2 lb.	4"	07276 (1)
.035"	2 lb.	4"	07277 (1)
.035"	10 lb.	8"	07278 (1)

Tech Tip

Follow all local and national codes for electrical wiring.

Welding Accessories

4-Way Repair Pick Kit	
Description	MetalWork! Part # (Qty.)
Aluminum Handle w/4 hardened steel picks	07525 (1)

C-Clamp, High Tensile Frame

Welding Rods & Electrodes

- Wire diameters include: 3/32", 1/8", and 5/32"
- Available in 1 lb., 5 lb., 10 lb. & 50 lb. shrink-wrapped boxes

6011					
Mild Steel. All-purpose, all-position for general repair. Great results on rusty, dirty metal, sheet metal and poor fit-ups. Designed for the repair and maintenance welder. Provides a stable arc and good penetration. AC or DC+.					
Size	Amperage	MetalWork! Part # (Qty.) 1 lb.	MetalWork! Part # (Qty.) 5 lb.	MetalWork! Part # (Qty.) 10 lb.	MetalWork! Part # (Qty.) 50 lb.
3/32"	20-75	07120 (1)	07121 (1)	07122 (1)	07123 (1)

5/32"	100-175	07150 (1)	07151 (1)	07152 (1)	07153 (1)

Tech Tip

Do not dip electrode into water for cooling.

Welding Rods & Electrodes (continued)

7014					
Mild Steel. Iron powder coated for higher speed & good deposit efficiency. Provides a smooth bead with a stable arc. Good appearance w/ easy slag removal. All position on straight/reversed polarity. Applications are the same as 6012 or 6013. AC or DC-.					
Size	Amperage	MetalWork! Part # (Qty.) 1 lb.	MetalWork! Part # (Qty.) 5 lb.	MetalWork! Part # (Qty.) 10 lb.	MetalWork! Part # (Qty.) 50 lb.

5/32"	100-175	07209 (1)	07210 (1)	07211 (1)	—

ER 308L Stainless Steel					
Stainless Steel. All position. Used for welding types 304L, 321 and 347 stainless steels. Carbon content held to 0.03% max. to reduce intergranular carbide precipitation.					
Size	Amperage	MetalWork! Part # (Qty.) 1 lb.	MetalWork! Part # (Qty.) 5 lb.	MetalWork! Part # (Qty.) 10 lb.	MetalWork! Part # (Qty.) 50 lb.
1/8"	60-100	07246 (1)*	07247 (1)*	—	—

ER 316L Stainless Steel					
Stainless Steel. All position. For welding acid-resistant steels such as 316 and 316L. Welds produced have good resistance to corrosion in most inorganic and organic acids and to pitting in chloride-bearing solutions.					
Size	Amperage	MetalWork! Part # (Qty.) 1 lb.	MetalWork! Part # (Qty.) 5 lb.	MetalWork! Part # (Qty.) 10 lb.	MetalWork! Part # (Qty.) 50 lb.
1/8"	60-100	07273 (1)*	—	—	—

Welding Rods & Electrodes (continued)

Hard Facing					
All position, hard surfacing rod. Smooth arc action permits easy application. Slag is easily removed. Used for building up or surfacing areas to resist abrasion. Applications include cylinder bars, draw bars, augers, etc. AC or DC reverse polarity.					
Size	Amperage	MetalWork! Part # (Qty.) 1 lb.	MetalWork! Part # (Qty.) 5 lb.	MetalWork! Part # (Qty.) 10 lb.	MetalWork! Part # (Qty.) 50 lb.
5/32"	100-175	07220 (1)	07221 (1)	—	—

High Nickel 55%					
Nickel rod designed for making machinable welds in cast iron. Welds well on dirty or corroded surfaces with a smooth arc at low amperages.					
Size	Amperage	MetalWork! Part # (Qty.) 1 lb.	MetalWork! Part # (Qty.) 5 lb.	MetalWork! Part # (Qty.) 10 lb.	MetalWork! Part # (Qty.) 50 lb.
1/8"	100-175	07233 (1)	07234 (1)	—	—

High Nickel 99%					
Nickel cast rod. All position AC or DC+. Powdered iron coating for good, machinable welds on cast iron. Creates quality welds on corroded surfaces. No pre-heating or post-heating.					
Size	Amperage	MetalWork! Part # (Qty.) 1 lb.	MetalWork! Part # (Qty.) 5 lb.	MetalWork! Part # (Qty.) 10 lb.	MetalWork! Part # (Qty.) 50 lb.
1/8"	100-175	07230 (1)	07231 (1)	—	—

Nomacast					
Cast Iron. A non-machinable steel rod designed and coated to run at low amperage for repairing cast iron. For use on cast parts that are not subjected to heating and cooling in normal use. AC or DC. DC+ recommended.					
Size	Amperage	MetalWork! Part # (Qty.) 1 lb.	MetalWork! Part # (Qty.) 5 lb.	MetalWork! Part # (Qty.) 10 lb.	MetalWork! Part # (Qty.) 50 lb.
